PRICE ON APPLICATION

MOTOR YACHT

ARCADIA 85

The **Arcadia A85** is a 26-meter motor yacht that combines comfort, functionality, and stability. A distinctive feature of this model is its double-glazed superstructure, an architectural solution that enhances the connection between the interior spaces and the surrounding nature.

The hull of the **A85** is made of fiberglass, and the superstructure is made of aluminum. Thanks to its semi-displacement hull, the yacht demonstrates good stability and efficiency. More than 40 square meters of solar panels generate about 4.5 kW of electricity, allowing life support systems to be powered without the constant operation of generators.

With a width of 7.14 meters, the **A85** offers truly spacious recreation areas. The stern features an open deck of approximately 100 square meters designed for relaxation and socializing, while the master cabin occupies 32 square meters.

There are four cabins for eight guests and two cabins for four crew members on board. The layout is designed to ensure privacy and comfort for everyone on board.

The yacht is equipped with two MAN I6 engines with a capacity of 800 hp each, allowing it to reach a cruising speed of 14 knots and a maximum speed of 17 knots.

The **Arcadia A85** is a practical and modern alternative to traditional yachts.

DESTINATIONS

TURKEY

A typical day on a private yacht in Turkey is as much about water activities as it is about endless coastal walks. Look around and you'll find extraordinary stone slabs of cliffs on steep, winding shores, sleepy hilltop villages and ancient ruins - relics of mighty empires - living out their days in the dense coastal vegetation. Boat transitions between islands can be short, giving you the opportunity to enjoy peaceful morning wakes and lazy strolls around the islands and small villages. And if the hiking proves to be too much, you can re-board and relax in the shade on the deck of your yacht. Turkey is a country with a rather hot climate, during the summer season, from June to August, temperatures can rise above 40°C, however, May, September and October are the most pleasant months for chartering in this region, the temperature drops to around 20-25°C and you can comfortably enjoy your trip.
