# MARALA

A true icon of the Golden Age of yachting, **MARALA** was built in 1931 by **Camper & Nicholson** to a design by Charles Nicholson. Following a major restoration at Pendennis completed in 2022, she was awarded Rebuild Superyacht of the Year 2023. The project carefully preserved her historic character and original details while discreetly integrating modern comforts, making MARALA an exceptional yacht both in heritage and in operation.

She accommodates 12 guests in six cabins, including a full-beam master suite, four doubles, and one twin. Interiors reflect the 1930s spirit, with period details enhanced by contemporary refinements for 21st-century comfort. Up to 18 crew deliver first-class service on board.

**MARALA's** deck spaces offer a blend of elegance and leisure, featuring expansive lounges, an original open-air cinema, a copper jacuzzi, and a unique pontoon for side guest boarding.

Remarkably, she still runs on her original 1930 MAN direct-drive engines. While maneuvering requires patience due to their heritage mechanics, these engines are celebrated for their smooth and reliable performance. She cruises at 10.5 knots with an impressively economical fuel burn of just 167 liters per hour.

A wide selection of water toys complements the onboard experience: Ribeye and Cockwells Duchy tenders, a 17ft wooden boat, Tiwal inflatable sailboat (2024), canoe, kayaks, Fliteboards, SUPs, water skis, wakeboards, towable inflatables, plus full snorkeling and safety gear.

## GREECE

Greece, a land of fabulous beauty, remains one of the world's most popular travel destinations and has almost 15,000 kilometers of coastline and over 2,000 islands, of which only 170 are inhabited.

There is no better way to explore the beauty of the Greek islands and the coastline of mainland Greece than on a private yacht. By chartering a yacht, you can see unique landscapes and experience the culture of several islands in a short period of time. Some of the islands have airports, making it possible to get to the yacht fairly quickly. The islands are close to each other, and the term "island-hopping" is used here for a reason. You can easily visit a dozen islands during a short cruise, explore isolated beaches with their unique local culture and taste the freshest national food.

Greece has over 250 days of sunshine a year and a typical Mediterranean climate with hot, dry summers. The peak cruising season is the summer from June to August, however, May, Sep...
