MOTOR YACHT

## PRINCESS 72

The **Princess 72**, built in 2016 by **Princess Yachts**, is an elegant 22-meter motor yacht ideally suited for charter cruising and comfortable leisure at sea.

The yacht is in good technical condition and undergoes regular maintenance, ensuring she is fully operational and ready for charter use. She is powered by twin Caterpillar engines, each delivering 1,650 hp, providing reliable performance and уверенное handling underway.

The layout accommodates up to eight guests across four cabins, making her ideal for both family vacations and trips with friends. A professional crew of three - including a captain, chef, and stewardess - ensures a high standard of service and attentive care throughout the journey.

The flybridge serves as the main outdoor living area, offering a perfect setting for relaxation, entertaining, and enjoying panoramic sea views.

Designed with charter use in mind, the **Princess 72** offers a well-balanced combination of space, functionality, and performance.

# DESTINATIONS

## TURKEY

A typical day on a private yacht in Turkey is as much about water activities as it is about endless coastal walks. Look around and you'll find extraordinary stone slabs of cliffs on steep, winding shores, sleepy hilltop villages and ancient ruins - relics of mighty empires - living out their days in the dense coastal vegetation. Boat transitions between islands can be short, giving you the opportunity to enjoy peaceful morning wakes and lazy strolls around the islands and small villages. And if the hiking proves to be too much, you can re-board and relax in the shade on the deck of your yacht. Turkey is a country with a rather hot climate, during the summer season, from June to August, temperatures can rise above 40°C, however, May, September and October are the most pleasant months for chartering in this region, the temperature drops to around 20-25°C and you can comfortably enjoy your trip.
