MOTOR YACHT

MATTEA

The motor catamaran **MATTEA**, built by **Sunreef Yachts** in 2025, is a modern 24-meter yacht that combines generous space, stability, and a high level of comfort. Her catamaran architecture provides increased usable area and excellent stability, ensuring smooth cruising and comfort both underway and at anchor.

The layout accommodates up to eight guests across four cabins, including a master suite and three guest cabins, each with en-suite facilities. A crew of five is housed in separate quarters, ensuring a high standard of service and guest privacy. The galley is located on the lower deck, optimizing crew operations while keeping guest areas open and uncluttered.

The design emphasizes openness and a strong connection to the sea. The cockpit flows seamlessly into the main saloon, creating a unified space with panoramic glazing and abundant natural light. Forward, a private terrace features lounge areas and a jacuzzi, while the aft platform transforms into a beach lounge with easy access to the water.

The flybridge offers an additional relaxation area with sun loungers, a dining space with a convertible table, a barbecue, and even a hammock - ideal for laid-back outdoor living.

A built-in garage in the aft section provides storage for water toys and equipment. The yacht is also equipped with solar panels, enhancing energy efficiency and reducing reliance on main power systems.

For active guests, **MATTEA** offers an extensive selection of water toys, including a seabob, e-foil, jet ski, wakeboard, SUP, snorkeling gear, inflatable towables, and kitesurfing equipment.

DESTINATIONS

GREECE

Greece, a land of fabulous beauty, remains one of the world's most popular travel destinations and has almost 15,000 kilometers of coastline and over 2,000 islands, of which only 170 are inhabited.

There is no better way to explore the beauty of the Greek islands and the coastline of mainland Greece than on a private yacht. By chartering a yacht, you can see unique landscapes and experience the culture of several islands in a short period of time. Some of the islands have airports, making it possible to get to the yacht fairly quickly. The islands are close to each other, and the term "island-hopping" is used here for a reason. You can easily visit a dozen islands during a short cruise, explore isolated beaches with their unique local culture and taste the freshest national food.

Greece has over 250 days of sunshine a year and a typical Mediterranean climate with hot, dry summers. The peak cruising season is the summer from June to August, however, May, Sep...
