# ALKYONE

**ALKYONE** is an **Azimut 77S** motor yacht delivered in 2017 by **Azimut Yachts** and refitted in 2024. She combines sporty performance with a contemporary layout, offering a well-balanced platform for both cruising and onboard comfort. Accommodation is arranged for up to 9 guests across four staterooms. The full-beam master suite features a king-size bed, complemented by a VIP cabin with a queen-size bed and two twin guest cabins - one convertible into a double and the other equipped with an additional Pullman berth. All cabins are en-suite. Separate crew quarters for four ensure a high standard of service.

The main deck is designed as an open, cohesive living space, with the saloon integrating a lounge and social area to form the central hub onboard. The aft deck connects directly to the interior, creating a seamless flow between indoor and outdoor living.

Powered by triple Volvo Penta D13 IPS1350 engines (1,000 hp each), **ALKYONE** offers excellent maneuverability and efficient handling. Fuel consumption is approximately 470 l/h at cruising speed and around 60 l/h during maneuvering. Power is supplied by twin 27 kW Onan generators, while onboard comfort is enhanced by a Seakeeper NG16 gyroscopic stabilisation system.

# DESTINATIONS

## GREECE

Greece, a land of fabulous beauty, remains one of the world's most popular travel destinations and has almost 15,000 kilometers of coastline and over 2,000 islands, of which only 170 are inhabited.

There is no better way to explore the beauty of the Greek islands and the coastline of mainland Greece than on a private yacht. By chartering a yacht, you can see unique landscapes and experience the culture of several islands in a short period of time. Some of the islands have airports, making it possible to get to the yacht fairly quickly. The islands are close to each other, and the term "island-hopping" is used here for a reason. You can easily visit a dozen islands during a short cruise, explore isolated beaches with their unique local culture and taste the freshest national food.

Greece has over 250 days of sunshine a year and a typical Mediterranean climate with hot, dry summers. The peak cruising season is the summer from June to August, however, May, Sep...
