MOTOR YACHT

HIGH ENERGY

HIGH ENERGY is a 28.2-metre **95 Yacht** delivered in 2024 by **Sunseeker**. She combines strong performance, a well-considered layout, and comfortable guest accommodation, making her an appealing option for both private use and charter. Accommodation is arranged for up to 12 guests across five staterooms. The full-beam master suite is located on the main deck, offering enhanced privacy, while the remaining guest cabins are positioned on the lower deck and designed for comfortable extended stays.

With a beam of 6.5 metres and a gross tonnage of approximately 101 GT, **HIGH ENERGY** offers open, light-filled interiors. The main saloon is seamlessly integrated with the exterior areas, creating a fluid connection between indoor and outdoor living spaces.

The flybridge serves as the primary open-air social hub, featuring a Jacuzzi, bar, and grill. Additional sunbathing space is available on the foredeck, while the aft platform is equipped with a hydraulic system for easy access to the water.

A comprehensive selection of water toys enhances the onboard experience, including a Williams Sportjet 460 tender (170 hp), a Sea-Doo jet ski, two Seabobs, an Audi e-tron foil by Aerofoils, water skis, a wakeboard, SUP boards, towable inflatables, and a floating platform.

DESTINATIONS

GREECE

Greece, a land of fabulous beauty, remains one of the world's most popular travel destinations and has almost 15,000 kilometers of coastline and over 2,000 islands, of which only 170 are inhabited.

There is no better way to explore the beauty of the Greek islands and the coastline of mainland Greece than on a private yacht. By chartering a yacht, you can see unique landscapes and experience the culture of several islands in a short period of time. Some of the islands have airports, making it possible to get to the yacht fairly quickly. The islands are close to each other, and the term "island-hopping" is used here for a reason. You can easily visit a dozen islands during a short cruise, explore isolated beaches with their unique local culture and taste the freshest national food.

Greece has over 250 days of sunshine a year and a typical Mediterranean climate with hot, dry summers. The peak cruising season is the summer from June to August, however, May, Sep...
