# THOR

**THOR** is a 2026 **Sunreef 70 Eco** catamaran built by **Sunreef Yachts**, representing one of the most technologically advanced multihull platforms in the modern luxury eco-yachting segment.

A defining feature of the yacht is her fully electric propulsion system, powered by twin Engiro motors and an upgraded 180 kW energy management architecture. Power is supplied through a 440 kWh battery bank supported by a 120 kW generator system, creating a highly efficient platform focused on reduced emissions, silent operation, and energy optimization.

The layout follows a galley-up configuration, integrating the saloon and galley into one expansive social space. Accommodation is arranged for up to 8 guests across four en-suite staterooms, including a master suite and VIP cabin with king-size beds, alongside two guest cabins with queen-size beds. Interiors are styled in a contemporary minimalist aesthetic, featuring Skai leather finishes and integrated smart-control systems.

The panoramic main saloon includes a transformable dining area, a retractable 55-inch Samsung television, and a premium KEF audio system integrated with Denon and HEOS technology. Crew accommodation is fully separate, ensuring privacy and uninterrupted guest comfort.

The flybridge serves as one of the yacht's primary lifestyle spaces, offering lounge seating, a bar, electric BBQ, sunbathing areas, and panoramic views. A hydraulic swim platform aft provides convenient access to the water, while the foredeck functions as an additional lounge terrace.

For water activities, **THOR** is equipped with a Williams DieselJet 505 tender, a Seabob, e-foil, SUP boards, wakeboard, water skis, towable inflatables, snorkeling equipment, and Xiaomi electric scooters.

**THOR** represents a new generation of luxury catamarans where the focus shifts away from maximum speed toward onboard lifestyle quality, silence, s...

# DESTINATIONS

## CROATIA

Embark on a journey of unparalleled beauty in Croatia! Picture yourself sailing along the stunning Adriatic coastline, exploring hidden gems like Diocletian's Palace in Split. With crystal-clear waters, charming villages, and a rich history, Croatia is a dream destination for yacht charters. Indulge in the Mediterranean sun and create unforgettable memories on the open seas. Your Croatian yacht charter adventure awaits!

While Croatia enjoys a Mediterranean climate, the warmest period is during the European summer (July-August). However, booking a yacht charter in Croatia during the shoulder seasons (May-June or September-October) still provides warm weather for swimming in the Adriatic's crystal-clear waters, minus the peak tourist crowds.

# DESTINATIONS

## MONTENEGRO

Montenegro is the perfect charter destination, where centuries-old architecture blends perfectly with modern hotels, bars and restaurants. From sailing Montenegro's azure waters on a charter yacht to exploring forested mountains, rocky cliffs and small villages nestled on sheer cliffs, this tiny Balkan country is a paradise for discerning travelers.

You can cruise the stunning rocky shores of the Bay of Kotor, known as the southernmost fjord, where emerald cliffs rise above crystal clear blue waters, or the Lustica Peninsula. A cultural attraction since the 17th century is the Ostrog Monastery, located in Montenegro's vertical cliffs, where the remains of St. Basil of Ostrog are kept.

The best time to visit Montenegro is between May and October. At this time you will enjoy pleasant sunny weather, and the sea temperature of 25°C will allow you to relax in the azure waters of the Adriatic Sea.
