MOTOR YACHT

## LAVIN

**LAVIN** is a 26.5-metre motor yacht delivered in 2024 by a Turkish shipyard, representing a contemporary trawler-style platform designed for relaxed and comfortable cruising throughout the Eastern Mediterranean. Based in Fethiye, the yacht combines generous interior volume, practical architecture, and a slower-paced cruising philosophy focused on comfort and extended stays on board. The concept prioritizes calm, energy-efficient cruising over high-speed performance, making **LAVIN** particularly well suited for longer itineraries along the Turkish coastline and the nearby Greek islands.

Exterior spaces are designed around an open-air lifestyle. The aft deck functions as a spacious al fresco dining area, while the flybridge serves as the yacht's primary social space for relaxing, enjoying the scenery, and evening gatherings. Additional shaded lounge areas, teak decking, and a swim platform with easy water access reinforce the yacht's relaxed onboard atmosphere.

Accommodation is arranged for up to 8 guests across four staterooms, including two master cabins, one double cabin, and one twin cabin. The main saloon is integrated with the dining area and surrounded by large windows that maintain a constant visual connection with the sea.

A crew of four - including a captain, chef, deckhand, and stewardess - provides full service throughout the voyage. The onboard experience is tailored toward privacy, a slower cruising rhythm, and a more personalized approach to itineraries and guest preferences.

**LAVIN** represents a new generation of Turkish-built trawler-style motor yachts where the emphasis is placed on space, stability, and onboard quality of life rather than outright speed, offering a refined platform for extended cruising in the Eastern Mediterranean.

# DESTINATIONS

## TURKEY

A typical day on a private yacht in Turkey is as much about water activities as it is about endless coastal walks. Look around and you'll find extraordinary stone slabs of cliffs on steep, winding shores, sleepy hilltop villages and ancient ruins - relics of mighty empires - living out their days in the dense coastal vegetation. Boat transitions between islands can be short, giving you the opportunity to enjoy peaceful morning wakes and lazy strolls around the islands and small villages. And if the hiking proves to be too much, you can re-board and relax in the shade on the deck of your yacht. Turkey is a country with a rather hot climate, during the summer season, from June to August, temperatures can rise above 40°C, however, May, September and October are the most pleasant months for chartering in this region, the temperature drops to around 20-25°C and you can comfortably enjoy your trip.
