MOTOR YACHT

ALBATROS

ALBATROS is a 26-metre motor yacht delivered in 2023, representing a contemporary trawler-style platform designed specifically for comfortable cruising along the Turkish Riviera and throughout the Eastern Mediterranean. Her concept is rooted in the traditional Blue Cruise lifestyle - a slower-paced, immersive style of yachting focused on open-air living, extended time at sea, and relaxed onboard comfort.

With a beam of 7.2 metres, **ALBATROS** offers generous interior volume and excellent stability, particularly noticeable during extended stays at anchor and relaxed coastal passages. Rather than prioritizing high speeds, the yacht's hull design and layout are optimized for comfortable and efficient cruising, making her especially well suited for itineraries around Göcek, Fethiye, Marmaris, and the nearby islands. Accommodation is arranged for up to 12 guests across six staterooms, including a master suite, four double cabins, and one twin cabin. All cabins feature en-suite bathrooms with separate shower compartments, air conditioning, televisions, and integrated audio systems.

The main saloon serves as the yacht's central social hub and incorporates an indoor dining area, lounge seating, satellite television, and a multimedia entertainment system.

Particular emphasis has been placed on the exterior lifestyle areas. The flybridge functions as the primary leisure deck, offering large sun pads, multiple lounge areas, and open panoramic viewpoints. The aft deck is centered around an alfresco dining space designed for long lunches, evening dinners, and relaxed cruising throughout the day. An American-style bar further enhances the yacht's informal and sociable onboard atmosphere.

Water activities are supported by a selection of equipment including paddleboards, a canoe, snorkeling and fishing gear, as well as a Zodiac tender for convenient shore access and exploration of smaller bay...

DESTINATIONS

TURKEY

A typical day on a private yacht in Turkey is as much about water activities as it is about endless coastal walks. Look around and you'll find extraordinary stone slabs of cliffs on steep, winding shores, sleepy hilltop villages and ancient ruins - relics of mighty empires - living out their days in the dense coastal vegetation. Boat transitions between islands can be short, giving you the opportunity to enjoy peaceful morning wakes and lazy strolls around the islands and small villages. And if the hiking proves to be too much, you can re-board and relax in the shade on the deck of your yacht. Turkey is a country with a rather hot climate, during the summer season, from June to August, temperatures can rise above 40°C, however, May, September and October are the most pleasant months for chartering in this region, the temperature drops to around 20-25°C and you can comfortably enjoy your trip.
