LASATA

LASATA is a 65.7-metre superyacht delivered in 2023 by **Rossinavi** and represents one of the most refined interpretations of contemporary architectural yacht design. The project was developed by **Philippe Briand** and **Vitruvius Yacht Design**, with interiors by **Enrico Gobbi**.

With a beam of 11.3 metres, a draft of approximately 3.13 metres, and a gross tonnage of around 1,194 GT, **LASATA** offers substantial interior volume while maintaining a visually light and balanced profile.

The interior concept combines contemporary architectural styling with a warm and highly livable atmosphere. A sculptural central staircase acts as the yacht's defining design feature, visually and physically connecting all guest decks into a cohesive spatial composition.

Accommodation is arranged for up to 12 guests across six staterooms, while a crew of up to 16 is housed separately to support a high standard of service and long-range autonomous operation. The full-beam owner's suite on the main deck benefits from expansive internal volume, panoramic glazing, and a strong sense of privacy.

Open-plan saloons, expansive exterior terraces, and fluid transitions between interior and exterior spaces create a highly natural onboard lifestyle. Particular emphasis has been placed on the culinary experience: the professional galley is integrated with a striking wine installation, transforming the dining area into one of the yacht's central social and atmospheric features.

Elegant, architectural, and highly contemporary, **LASATA** reflects a modern superyacht philosophy centered on volume, light, and seamless onboard living, while maintaining the understated sophistication characteristic of the Vitruvius design approach.
