MOTOR YACHT

ALINA

ALINA is a 23-metre **Fountaine Pajot Power 80** motor catamaran designed for charter in Greece. She combines the key advantages of a multihull platform—space, stability, and smooth behavior on the water - with a level of comfort and service more commonly associated with larger superyachts. Compared with many monohull yachts of similar length, **ALINA** offers significantly more usable area and allows several independent relaxation zones to be used at the same time without feeling crowded. Exterior spaces are among the yacht's strongest features. The aft deck is well suited for open-air breakfasts, evening drinks, and informal socializing. Forward, the bow area features a Jacuzzi, large sun pads, and a wet bar, creating a calm lounge space with open sea views. The flybridge adds another full social deck, arranged for al fresco dining and relaxed lounging. The main saloon is open-plan, with large windows that fill the interior with natural light and strengthen the visual connection to the sea. Lounge and dining areas are integrated into one generous guest-focused space. The galley is located on the lower level, allowing the main saloon to remain fully dedicated to guests and free from unnecessary functional intrusion. Accommodation is arranged for up to 10 guests across five en-suite cabins, including an owner's suite and four guest cabins. Each cabin has its own bathroom, ensuring privacy and comfort for all guests. A professional crew of five manages navigation, service, housekeeping, and cuisine. The chef prepares menus according to guest preferences, using fresh local ingredients, while the captain and crew can adapt the itinerary to the desired pace of the charter - from quiet anchorages in secluded bays to more active island-hopping across the Greek islands. This service format supports a relaxed atmosphere on board while maintaining a high level of organization.

DESTINATIONS

GREECE

Greece, a land of fabulous beauty, remains one of the world's most popular travel destinations and has almost 15,000 kilometers of coastline and over 2,000 islands, of which only 170 are inhabited.

There is no better way to explore the beauty of the Greek islands and the coastline of mainland Greece than on a private yacht. By chartering a yacht, you can see unique landscapes and experience the culture of several islands in a short period of time. Some of the islands have airports, making it possible to get to the yacht fairly quickly. The islands are close to each other, and the term "island-hopping" is used here for a reason. You can easily visit a dozen islands during a short cruise, explore isolated beaches with their unique local culture and taste the freshest national food.

Greece has over 250 days of sunshine a year and a typical Mediterranean climate with hot, dry summers. The peak cruising season is the summer from June to August, however, May, Sep...
