SPARE WHEELS

SPARE WHEELS is a 24-metre **Arcadia Sherpa 80** delivered in 2026, offering a distinctive approach to modern Mediterranean cruising. Combining exceptional volume, relaxed comfort and a strong connection to the sea, she represents one of the most innovative yachts in her size category.

One of the yacht's defining features is Arcadia's signature sea-level terrace. Positioned directly above the water, this expansive area creates a true waterfront retreat with effortless access for swimming, launching water toys and relaxing close to the sea. Thanks to her wide beam and highly efficient layout, **SPARE WHEELS** offers approximately 221 square metres of guest space - an impressive figure rarely found aboard a yacht of this length.

Outdoor living lies at the heart of the yacht's concept. Generous lounge areas, sunbathing spaces and al fresco dining zones are distributed across the decks, allowing guests to make the most of their time on the water, whether enjoying a quiet day at anchor or cruising between destinations.

The interior follows a contemporary design philosophy centred around natural light and openness. Floor-to-ceiling glazing fills the living spaces with daylight while maintaining a constant visual connection to the surrounding seascape. The result is an atmosphere that feels bright, airy and considerably larger than the yacht's overall dimensions suggest.

Accommodation is provided for up to 8 guests in 4 en-suite cabins. The layout includes two double cabins and two twin cabins, making **SPARE WHEELS** particularly well suited to families and groups of friends seeking a relaxed and versatile cruising platform.

Further enhancing the yacht's efficiency is an integrated solar panel system generating approximately 2.5 kW of power. This helps reduce generator usage, lowers energy consumption and reflects Arcadia's long-standing commitment to environmentally conscious y...
