MOTOR YACHT

ARION

ARION is a 37-metre motor yacht built by **Couach** in 2011. She has been actively operated on the charter market and is presented in excellent technical condition. Between 2021 and 2025 the yacht underwent a comprehensive programme of regular upgrades and maintenance, meaning **ARION** requires no further investment and is fully ready for immediate operation.

The hull and superstructure are built in GRP, with teak-laid decks throughout. The interior, designed by Ken Freivokh, is characterised by a functional layout and generous natural light. The main salon combines a comfortable lounge area with a formal dining space accommodating up to 12 guests, making the yacht equally suitable for private use and charter activity.

ARION accommodates up to 10 guests in five cabins. The full-beam master suite is located on the lower deck and features a private seating area and large hull windows. Additional accommodation includes a VIP cabin, a twin cabin with a Pullman berth, and a second VIP cabin located on the main deck - an especially practical arrangement for senior guests or dual ownership. Crew quarters are arranged separately for up to six crew members, ensuring efficient service while maintaining guest privacy.

Outdoor areas are designed for active use and socialising. The flybridge offers generous space for relaxing and entertaining, the foredeck provides a dedicated sunbathing area, and the aft section of the main deck leads directly to the swim platform and the garage for water toys.

Powered by two MTU 12V 4000 M90 engines delivering 2,715 hp each, **ARION** cruises comfortably between 18 and 22 knots, with a top speed of up to 26 knots. Her range is approximately 2,000 nautical miles at economical speed. The yacht is equipped with VEEM gyroscopic stabilisers, Kohler generators, Dometic air conditioning, watermakers, and a full suite of modern navigation and audiovisual systems, including Starlink Maritime connectivity.

Recent upgrades include a full hull repaint, new teak decks, generator replacement, servicing of the main engines, interior updates, and maintenance of the stabilisation systems.

ARION is a fast, well-balanced motor yacht with a proven charter track record, modern equipment and up-to-date technical condition, making her an attractive option for both private ownership and commercial operation.
