## AB 110S

**AB 110S** is a 33.7-metre motor yacht that combines cutting-edge engineering with impressive performance and onboard comfort. Designed with versatility in mind, she offers four guest cabins for up to 10 guests and is also available in a commercial layout.

One of her standout features is the 17-square-metre beach club, which includes a built-in sunbed with integrated storage for two Seabobs and a garage capable of holding a tender and a jet ski. A hatch above the sunbed offers quick access to gear, while an integrated sunshade within the spoiler structure provides shelter at the stern.

Powered by three MAN V12X-2200 engines with a combined output of 6,600 hp and an MJP waterjet propulsion system—featuring two steerable jets and a central booster—**AB 110S** reaches a thrilling top speed of 48 knots. A Seakeeper 26 gyroscopic stabiliser enhances stability both underway and at anchor.

The flybridge is equipped with a retractable helm station and a sleek hardtop with sun-synced adjustability, ensuring ideal shade while preserving the yacht's clean, sporty lines. Built from advanced composite materials and drawing just 1.3 metres, **AB 110S** is well-suited for cruising in shallow bays and coastal waters.

Crew accommodations include two cabins for up to four staff, supporting a high standard of service for longer voyages. With its focus on speed, contemporary styling, and practical functionality, **AB 110S** is ideal for owners who value performance and refined design in everyday yachting.
