ADMIRAL 70

Admiral 70 is a 70-metre superyacht built in Italy with a steel hull and aluminium superstructure, embodying a modern, refined approach to contemporary yacht design. Defined by clean geometry and a carefully engineered layout, this model seamlessly integrates interior and exterior living spaces into a cohesive and highly functional environment.

With a gross tonnage of 1,350 GT, **Admiral 70** offers generous volume across her decks. She accommodates up to 12 guests in six well-appointed staterooms, while dedicated quarters provide space for a crew of up to 16, ensuring smooth operation and exceptional service throughout long voyages or charter operations.

Powered by twin Caterpillar 3512C engines, each delivering 1,500 kW, the yacht reaches a top speed of 15.5 knots and cruises comfortably at 14.5 knots. These performance figures allow for efficient travel across both short island-hopping trips and extended transoceanic routes.

The yacht's layout emphasizes clear circulation pathways, open views, and fluid transitions between lounges, dining areas, and exterior decks. Whether used for private ownership or luxury charter, Admiral 70 offers a balanced blend of style, comfort, and seagoing capability — all within a striking, minimalist design.
