S-FORCE 55

S-Force 55 is a 55-metre superyacht built entirely in aluminium, combining sleek design with solid performance. Powered by twin CAT C32 Acert engines, she reaches a top speed of 18 knots. Her semi-displacement hull form and generous fuel capacity of 63,000 litres allow for stable cruising and transatlantic range.

With a gross tonnage of under 500 GT, **S-Force 55** accommodates up to 12 guests in six cabins. The master suite — complete with a private office — and a full-beam VIP stateroom are located on the main deck, while four guest cabins are positioned on the lower deck. Crew quarters consist of five cabins for up to 10 crew members.

The interiors are designed in a light, refined palette, featuring a combination of marble, leather, and wood. Expansive windows bring abundant natural light into the full-beam main salon and formal dining area, enhancing the sense of openness and connection to the sea.

Outdoor spaces are designed for both relaxation and entertainment. The sundeck features a Jacuzzi, gym area, and sun loungers, while alfresco dining and lounge areas are spread across multiple decks. The foredeck lounge can also function as a touch-and-go helipad. The garage accommodates a tender up to 8 metres along with a full range of water toys.

S-Force 55 is available for new build with an estimated delivery time of 18 months from contract signing — ideal for owners seeking a refined, fast, and versatile superyacht with global cruising capability.
