GRAN TURISMO 45 ALLOY

GT 45 is a 45-metre superyacht distinguished by bold styling from **Enrico Gobbi – Team for Design**. Its sleek profile, marked by dynamic, sporty lines and a vertical bow, balances aesthetics with practical seakeeping and efficiency. The yacht can be built in two configurations: all-aluminium for high-performance cruising, or with a steel hull and aluminium superstructure for extended-range voyaging and enhanced stability.

Measuring 45 metres in length with a beam of 8.3 metres, **GT 45** is powered by twin MTU 16V2000M96L engines. She reaches a top speed of 20 knots, cruises comfortably at 18 knots, and offers a range of up to 3,600 nautical miles at 12 knots - making her equally suited for quick coastal trips or long-distance itineraries.

The layout accommodates up to 10 guests across five staterooms, including a full-beam master suite, two VIP cabins, and two guest cabins. Crew quarters for up to nine crew are arranged in five cabins, ensuring smooth onboard operations and discreet service.

A key feature of the yacht is the aft beach club, which includes a gym with direct access to the swim platform. The tender garage is cleverly positioned transversely across the beam, freeing up valuable space and providing easy access to water toys and equipment.

With a gross tonnage of 440 GT, **GT 45** offers a refined balance of performance, range, and volume within a streamlined, contemporary package - designed for owners who seek style, capability, and onboard comfort without compromise.
