GODDESS OF THE MOON

GODDESS OF THE MOON, the 11th hull of the successful **Arcadia Sherpa 60** series, is an exceptional 18.28-metre motor yacht that embodies **Arcadia Yachts'** core philosophy: sustainable innovation, modern comfort, and relaxed refinement. Built to elevated technical specifications and enhanced to meet the bespoke requirements of a discerning owner, this yacht is an ideal choice for those seeking serenity, style, and off-the-grid cruising.

Her semi-displacement hull offers excellent manoeuvrability while allowing access to shallow anchorages—without compromising interior or exterior volume. The 50-square-metre aft deck seamlessly extends the main saloon, forming a panoramic open-air space ideal for dining, lounging, and entertaining in natural surroundings. The Sky Lounge features retractable glass panels that transition the space from enclosed to fully open, while still offering shelter from sun and wind.

Functionality is a key highlight. A dedicated tender garage on the main deck—rare for yachts in this size range - provides convenient storage for a jet ski and water toys. An electro-hydraulic transformer and oversized swim platform ensure safe, effortless access to the water, making the yacht perfectly suited to families and active travellers.

Powered by a Volvo Penta D8-600 IPS system, **GODDESS OF THE MOON** delivers quiet, efficient cruising. Integrated solar panels generating up to 1.5 kW help support the yacht's hotel load, reducing diesel consumption and minimising environmental impact.

The interior reflects **Arcadia's** signature design language: natural light, organic materials, and contemporary minimalism. Expansive windows flood the saloon with daylight, and the open-plan layout creates an inviting sense of space.

Accommodation includes two generous staterooms, with the full-beam master suite featuring its own private lounge - an uncommon luxury on a sub-20-metre yacht.

Meticulously maintained, technically refined, and ready for immediate cruising, **GODDESS OF THE MOON** represents a rare opportunity to acquire a boutique eco-conscious yacht that blends Italian elegance with Dutch practicality and artisanal build quality.
