## MILU'

**MILU'** is a 26-metre **Arcadia A85** motor yacht launched in 2019 by **Arcadia Yachts** and designed by Francesco Guida. Embracing the "loft-style" concept, she offers bright, open spaces and prioritises energy efficiency throughout her design. Accommodating up to 8 guests in 4 well-appointed cabins, **MILU'** features a spacious full-beam master suite measuring 32 square metres. Crew quarters include two cabins for up to 4 members, ensuring discreet and professional service. Privately used since launch, the yacht has logged approximately 1,100 engine hours and has been meticulously maintained.

**MILU'** comes with a host of upgrades, including marble-finished bathrooms, a reinforced swim platform engineered to support a Williams 395 tender with passengers aboard, a built-in wine cooler, ice maker, and Awlcraft-painted hull and superstructure. The yacht is also equipped with solar panels generating up to 4.7 kW, significantly reducing reliance on generators and enhancing eco-performance. Powered by twin MAN i6 engines rated at 730 hp each, she reaches a top speed of 16 knots and cruises comfortably at 10 knots, with a range of up to 950 nautical miles. Additional features include CMC electric stabilisers, a bow thruster, watermaker, Raymarine navigation suite, thermal imaging camera, and a full range of domestic appliances for extended stays on board.

Registered under the Maltese flag, **MILU'** is stored in a private indoor facility each winter and is available for immediate delivery. She represents a rare opportunity to acquire a lightly used, energy-conscious yacht blending Italian style with technical sophistication and long-range cruising capability.
