MOTOR YACHT

ARMADA

ARMADA is a 54-meter full-displacement motor yacht delivered in 2011 by **Columbus Yachts**. Built with a steel hull and aluminum superstructure, she combines robust construction with a carefully considered layout ideal for long-range cruising. Naval architecture is by Hydro Tec, with interiors penned by Tommaso Spadolini. With an impressive gross tonnage of 838 GT, **ARMADA** offers expansive living areas of approximately 350 square meters, bathed in natural light through large panoramic windows. She accommodates up to 14 guests across six cabins, including a main deck master suite, a VIP cabin on the upper deck, and four guest cabins on the lower deck (two doubles and two twins). Separate crew quarters house 13 crew members, ensuring a high standard of service.

The interiors feature a refined mix of natural stone, wood, and leather, creating an elegant yet comfortable atmosphere. Outdoor spaces are equally generous, with multiple zones for relaxation and entertainment: a sun deck with Jacuzzi, alfresco dining areas, and a beach club at the stern. A touch-and-go helipad enhances her versatility for remote access.

Powered by twin MTU 16V 4000 M60 engines, each with approximately 3,200 hours (as of mid-2025), **ARMADA** reaches a maximum speed of 18 knots and cruises comfortably at 16 knots. Her transoceanic range of up to 5,000 nautical miles makes her a reliable choice for global exploration.

Additional features include a Castoldi Jet tender (6.5m), two Yamaha Waverunner 1300s, a fully equipped gym, and a complete inventory of technical systems and guest amenities.

Offered for sale in turn-key condition, **ARMADA** is an excellent opportunity for discerning buyers seeking a yacht with exceptional autonomy, generous volume, and proven capability for world cruising.
