E26 RIDER

E26 Rider is an 8-meter open-bow tender powered by an outboard engine, designed as a versatile solution for day cruising, water sports, or guest transfers. Its clean and understated design, featuring a vertical bow and sleek hull lines, gives it a distinctive and modern look.

The boat is ideal both as a luxury tender and for independent short coastal trips. Equipped with a 300 hp Mercury Verado engine, it delivers excellent performance on the water.

The layout prioritizes comfort and functionality: two sofas along the aft sides can be converted into a sunbathing area. The helm and co-pilot seats swivel to face the cockpit, creating an integrated social and control space.

The bow hosts a relaxing lounge area, while beneath the central console there is a technical compartment with a toilet and sink. Thanks to its simple and logical spatial arrangement, the E26 Rider is well suited for day trips and short passages alike.

Measuring 7.85 m (8.10 m including the engine) in length and 2.49 m in beam, the boat is CE certified in categories B (up to 10 passengers) and C (up to 12 passengers).

The **E26 Rider** combines practicality, versatility, and sleek contemporary design to meet a wide range of needs.
