EXTRA 76 is a 24-meter motor yacht built in 2018 by **Extra Yachts**, combining modern Italian design with generous outdoor spaces and smart functionality. Designed by Francesco Guida, she features a semi-displacement GRP hull with white Awlgrip paint, teak-laid decks, and a striking superstructure — all crafted with a focus on style and livability. EU VAT is paid, offering a turnkey solution for Mediterranean cruising.

At the heart of her layout is a spacious beach-style aft deck, designed to sit close to the waterline and maximize the onboard-outdoor connection. This area includes a large al fresco dining table under the flybridge overhang, ideal for relaxing at anchor or dockside in the marina.

The main salon is flooded with natural light through panoramic windows, creating a serene and open ambiance. The light-toned interior is arranged to accommodate up to 8 guests in 4 en-suite cabins: a full-beam master suite, one VIP cabin, and two twin guest cabins. Crew accommodation is located forward and includes separate access, sleeping for 2, and a private bathroom.

Powered by twin Volvo Penta IPS 1050 engines (800 hp each), **EXTRA 76** reaches a top speed of 19 knots and cruises comfortably at 14 knots. With 5,500 liters of fuel capacity, she offers a range of approximately 450 nautical miles — well suited for island-hopping and extended stays in the Mediterranean.

The flybridge provides a second helm station and a relaxed social area with excellent visibility. Thanks to joystick controls, intuitive navigation systems, and a well-thought-out layout, the yacht is well-suited for both owner-operators and short-handed crew operation.

EXTRA 76 is a refined and versatile yacht that excels in outdoor living, onboard comfort, and understated sophistication — a rare opportunity in the 24-meter category.
