MOTOR YACHT

STERN

STERN is a three-deck **Wider 165** motor yacht, built in Italy by **Wider Yachts** and awarded the World Superyacht Award 2019 for innovative design. Engineered for maximum connection with nature and extended-range cruising, she combines luxurious comfort with advanced eco-friendly technologies, featuring a diesel-electric propulsion system with azipods and a zero-emission hybrid mode. Her propulsion includes four MAN diesel generators, electric motors, and 91 battery cells enabling silent cruising at 5 knots. The energy-efficient configuration allows seamless switching between diesel and electric modes without compromising onboard comfort, powering all guest areas effortlessly. Accommodation is for 10 guests in 5 cabins, including a full-beam owner's suite on the main deck with two fold-out balconies. The lower deck houses two VIP cabins and two guest cabins, all en-suite, along with a gym and sauna with direct access to the beach club.

STERN's exterior and leisure spaces are designed for ultimate enjoyment: a beach club with easy water access, a saltwater pool, two Jacuzzis, a touch-and-go helipad, and an aft garage. Lounges are located aft on the main deck and on the sundeck, while the upper deck aft features a spacious dining area. The yacht has undergone an extensive refit program, maintaining her as "like-new," including updated salons, owner and guest areas, new deck layouts, upgraded generators, and a full hull repaint. Thanks to her hybrid diesel-electric system, **STERN** cruises comfortably at 13 knots, with a top speed of 14.1 knots, delivering efficiency and comfort for long-range voyages.
