MOTOR YACHT

CARYALI

Designed by René van der Velden and built by **Alloy Yachts**, **CARYALI** is a 41.2-meter expedition motor yacht that has earned the World Superyacht Award, ShowBoats Design Award and the International Superyacht Society Award. Built for her original owner and never chartered, she is presented in excellent condition.

With a gross tonnage of 398 GT, **CARYALI** combines long-range capability with exceptional comfort. A bulbous bow ensures efficiency over extended passages, while wide decks, a dedicated observation lounge and a spacious tender/toy garage make her ideal for exploration.

The interior, developed in collaboration with RWD, features walnut paneling complemented by leather and marble accents. Accommodation is for 10 guests in 5 cabins, including a full-beam main-deck master suite, two VIP cabins and two twin cabins on the lower deck. The main salon flows into the formal dining area, and a sky lounge with sliding glass doors provides panoramic views.

Outdoor spaces include a gym with sea views, a sun deck with bar and dining area, and a foredeck Jacuzzi. Overhead heat lamps make these areas usable year-round. Following her Lloyd's 10-year survey and a complete repaint, **CARYALI** is ready for immediate cruising. Powered by twin Caterpillar C32 ACERT engines, she offers a cruising speed of 12.6 knots, a maximum speed of 15.2 knots and a range of 4,000 nautical miles.

A proven, award-winning explorer yacht, **CARYALI** blends seaworthiness, functionality and timeless design.
