MOTOR YACHT

SEMIA

SEMIA — **Princess X95**, built in 2022, represents a new generation of yachts focused on space, comfort, and innovation. Designed in collaboration with Pininfarina and Olesinski, she combines refined styling with exceptional seakeeping and performance.

Her interiors offer 40% more living space than previous models in her class, featuring bright, open layouts with panoramic glazing that floods the interior with natural light. Accommodation is provided for 10 guests in 5 cabins, including a full-beam master suite with large windows and a generous walk-in wardrobe.

The main salon seamlessly integrates the lounge and dining areas, while the fully equipped galley fitted with Miele appliances ensures comfort on extended voyages. Outdoor living spaces include a flybridge with a bar and grill, an aft cockpit with alfresco dining, a forward lounge area, and a hydraulic swim platform with a beach club and tender garage.

Powered by twin MAN V12 engines (2,000 hp each), **SEMIA** reaches speeds of up to 26 knots. Additional equipment such as Seakeeper stabilizers, bow and stern thrusters, a watermaker, and a CCTV system ensure safe and effortless operation. Elegant, spacious, and technologically advanced, **SEMIA** embodies the innovative spirit of the **Princess X95** series — a true blend of luxury and performance.
