SOARIS

Aicon 85 SOARIS was originally built in 2009 but officially commissioned only in 2018, giving her a notably fresher operational lifecycle compared to most yachts of a similar build year. Measuring approximately 26 metres, **SOARIS** combines a modern technical platform, commercial registration and low engine hours.

She is powered by twin CAT C33 engines of 1,825 hp each, delivering a top speed of around 34 knots and a comfortable cruising speed of approximately 12 knots.

Manoeuvrability is enhanced by Sleipner SP2401 bow and stern thrusters.

Accommodation is arranged for eight guests across four cabins: a master suite, a VIP cabin and two guest cabins. Two crew cabins provide berths for up to three crew members. The main salon - about 46 m² - features an open-plan layout connected directly to the aft deck, creating a unified social space for relaxation and entertainment.

Deck equipment includes an anchoring system with an 80-metre chain, a telescopic gangway, a hydraulic gangway, mooring winches, teak decking and a bimini top.

Tender operations are supported by dedicated structural mounts and winches.

Interior domestic equipment comprises refrigerators, a freezer, dishwasher, microwave, Whirlpool cooktop and a washing machine.

The audiovisual package includes televisions in all key areas, satellite TV, a BOSE sound system and an integrated digital control network.

Following a refit in 2024, **SOARIS** stands out as a practical, technically up-to-date and economically sound option among fast composite yachts in the ~26-metre segment.
