MOTOR YACHT

CINQUE LUNE

CINQUE LUNE Alalunga 85 Sport, is a 23.94-metre planing motor yacht launched in 2005. Her GRP hull and teak decks form the foundation of a fast, lightweight yacht designed for active outdoor living and efficient interior flow. In 2019, both CAT C32 ACERT engines (1,929 hp each) were overhauled, allowing the yacht to reach speeds of up to 42 knots. A shallow draft of 1.1 metres provides access to secluded anchorages and shallow bays, expanding route flexibility.

Large side windows, a wide forward windscreen, and an opening panoramic sunroof enhance the sense of openness and create a seamless visual connection with the sea. The main deck is arranged as a continuous salon that merges the indoor lounge with the aft cockpit. On the lower deck, accommodation is provided for nine guests in four cabins: a full-beam master suite, a forward VIP cabin, and two twin cabins - one of which includes an additional Pullman berth. All guest cabins feature ensuite bathrooms. Crew quarters for three are located in two separate cabins.

The aft cockpit serves as the primary outdoor living area, offering direct access to the water and space for an al fresco dining setup. Generous sunpads are located on both the bow and stern. In recent years, the yacht has undergone multiple refits, including updates to mechanical systems, interior finishes, and onboard infrastructure.

Combining high speed, a thoughtful layout, generous accommodation and strong technical condition, **CINQUE LUNE** is a practical and versatile choice for private cruising and dynamic Mediterranean charters.
