TRANQUILITY BASE

TRANQUILITY BASE is a 2022 **Pershing 6X** - one of the latest hulls of the series, embodying the brand's signature focus on high performance. Designed by Fulvio De Simoni and built in composite materials, the yacht measures 18.94 metres in length with a 4.8-metre beam and a 1.45-metre draft. Her planing hull, paired with twin MAN V12 engines of 1,550 hp each, delivers a cruising speed of 40 knots and a maximum of 48 knots, supported by fuel capacity of 3,200 litres and 740 litres of fresh water.

The interior layout accommodates six guests in three cabins. The full-beam master suite occupies the central section of the lower deck, while the forward VIP and a starboard guest cabin both include en-suite bathrooms. The main saloon combines a dining area and lounge, while the cockpit provides access to a dedicated crew cabin.

On the technical side, **TRANQUILITY BASE** is equipped with a NANNI 19.7 kW generator, inverter, chargers, 63A shore power and a Seakeeper NG6 gyro stabiliser. Additional systems include bow and stern thrusters, hydraulic interceptors, a 72,000 BTU climate-control system and a 130 l/h watermaker. The navigation suite is based on Simrad, featuring dual 19" displays, radar, AIS, GPS, autopilot, an engine-room camera and integrated vessel-monitoring functions. The helm station includes an adjustable helm seat and an electric sunroof.

Outdoor living spaces feature sunpads forward and aft, as well as a cockpit dining area. The swim platform includes a retractable ladder, and the garage accommodates a tender. Teak decking runs throughout, and the yacht is fitted with a 2,300 W windlass, mooring capstans, underwater lights, sun awnings and protective covers.

TRANQUILITY BASE represents a rare opportunity to acquire a late-model **Pershing 6X** with top-tier performance, modern systems and the unmistakable Pershing aesthetic.
