6X

Pershing 6X is a **Generation X** sport motor yacht where high performance is combined with advanced technology and a rational, well-balanced interior layout. The 18.94-metre hull incorporates extensive use of carbon fibre, reducing weight and enhancing dynamic performance, while the signature Pershing side “wings” improve aerodynamics and flood the interiors with natural light.

Twin MAN V12 engines producing 1,550 hp each propel the yacht to a top speed of up to 48 knots, with a comfortable cruising speed of around 40 knots. Surface drives and integrated control systems deliver precise handling and full confidence even at high speeds.

Accommodation is arranged for six guests in three cabins, complemented by a separate crew cabin. The full-beam master cabin is located amidships, while the two guest cabins are also en suite. Interiors reflect Pershing’s signature style, with a combination of wood finishes, lacquered surfaces and parquet flooring.

On the main deck, the cockpit features a transformable table, a lounge area and direct access to the foredeck sunbathing area. A large sliding sunroof above the helm further enhances the open, airy feel on board.

Pershing 6X is an ideal choice for owners seeking speed, cutting-edge engineering and compact yet fully realised comfort for dynamic outings and short-range cruising.
