VERVE 42

Verve 42 is a high-performance outboard-powered motor yacht designed for active day cruising and short weekend trips. The model combines impressive speed, compact dimensions and a highly functional layout.

The cockpit is conceived as a versatile social area. A height-adjustable electric table easily converts from a dining table to a coffee table or lowers completely to create a large sunbed. A fold-down terrace on the port side extends the cockpit into an additional water-level swim platform with a ladder, expanding the outdoor living space and providing easy access to the sea.

The bow is arranged on two levels: an upper sunbathing area and, below, a lounge with a C-shaped sofa and a table seating up to six guests. This configuration works equally well for entertaining at anchor or relaxing during coastal stops.

The helm station is surrounded by panoramic glazing, offering excellent visibility and a constant visual connection with the water - an important feature when running at higher speeds.

Below deck, the aft owner's cabin features a double berth and hullside windows. The galley is equipped with essential appliances, while the dinette can convert into an additional sleeping berth and be separated by a curtain if needed. The spacious bathroom includes a separate shower compartment and a window.

Verve 42 is an ideal choice for owners seeking a dynamic, agile yacht with well-designed outdoor areas and a practical interior layout for an active lifestyle on the water.
