# RIII

**Sunseeker 28 Metre Yacht RIII** (2015) is a high-performance motor yacht from Sunseeker, designed around a Deep V hull for confident, comfortable cruising at speed. The hull and superstructure are built in GRP, with teak-laid decks throughout. Power comes from twin MTU 12V 2000 M94 diesel engines, each delivering 1,950 hp, providing a cruising speed of around 23 knots and a top speed of approximately 25 knots. Bow and stern thrusters, together with integrated monitoring systems, ensure easy handling and precise manoeuvring.

The interior layout accommodates up to eight guests in four cabins, all equipped with ample storage and multimedia systems. The main salon benefits from panoramic glazing, filling the space with natural light and combining a comfortable lounge with a formal dining area. The galley is located adjacent to the salon and is fully equipped to support extended stays on board.

Outdoor living areas are distributed between the foredeck, aft cockpit, and flybridge. The foredeck features sun loungers for relaxed daytime use, while the flybridge offers a social space with seating and a bar. Aft, the cockpit leads directly to a hydraulic swim platform, providing safe and convenient access to the water.

Navigation and electronics are based on a Simrad suite, including radar, autopilot, chartplotter, AIS, and VHF. Onboard systems are completed by air conditioning, Kohler generators, and autonomous power management, making **RIII** a well-equipped and capable yacht for both fast passages and comfortable cruising.
