MADDAMC2

MADDAMC2 – Zeelander 72 is a 2023 Dutch-built high-performance motor yacht, developed by Zeelander Yachts in collaboration with Cor D. Rover and Van Oossanen. Her deep-V hull and sleek, sculpted profile deliver exceptional stability and comfort, even at high speeds.

Powered by three Volvo Penta IPS 1350 engines, she reaches speeds of up to 40 knots, with a comfortable cruising range of 25–28 knots. Seakeeper gyro stabilization, Dynamic Positioning, joystick controls, and the Garmin / Volvo Glass Bridge make handling and docking precise and effortless.

The main deck is conceived as one open, flowing space, where the cockpit, bar, and salon merge through large sliding doors, creating a bright and social environment for relaxing and entertaining. Forward, the raised lounge and helm offer excellent visibility and a refined pilothouse feel.

On the lower deck, three ensuite cabins accommodate guests in comfort: a forward full-beam Master suite with a king-size bed and two guest cabins with queen beds, one of which converts into twins for added flexibility.

Aft, the yacht features a spacious swim platform and a concealed tender garage with an efficient launch system. Onboard systems include a Cummins Onan 21.5 kW generator, air conditioning, and a full suite of modern navigation, entertainment, and control systems.

MADDAMC2 Zeelander 72 delivers a rare blend of sports-boat performance, superyacht-level craftsmanship, and an intelligent layout, making her ideal for hands-on owners who value speed, style, and effortless cruising.
