133 MALLORCA

Moonen 133 MALLORCA is a 40.54-meter motor yacht, designed in collaboration with René van der Velden and Vripack Yacht Design. Its steel hull with an aluminum superstructure ensures exceptional strength and stability. Perfect for long cruises, it offers comfort and safety on board with a cruising range of up to 4,000 nautical miles.

The exterior design by René van der Velden features sleek lines and spacious living areas. The aft deck, with multiple levels, includes a beach area with a pool, a hydraulic Z-lift platform for easy water access, and a dining area on the main deck. On the sundeck, there is a dining area, a lounge, a bar, and a Jacuzzi with sunbeds. For added versatility, the yacht offers an interior-access beach club, combining relaxation zones with convenient tender access.

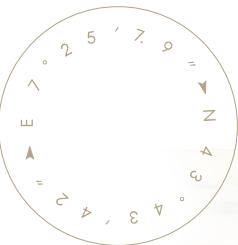

The **Moonen 133 MALLORCA** can accommodate up to 12 guests in 5 cabins, including the master suite located on the main deck, spanning the full beam of the yacht, with a walk-in wardrobe and en-suite bathroom. Below deck, there are two VIP cabins and two guest cabins, each with its own en-suite bathroom. Additionally, there are 5 crew cabins for 9 crew members, ensuring high service standards and privacy for guests.

Powered by two MAN D2862 LE489 engines, each with 1,224 horsepower, the yacht achieves a cruising speed of 13 knots and a top speed of 15 knots. With a fuel-efficient range of 4,000 nautical miles, it offers outstanding fuel economy and high performance. The yacht is also equipped with CMC fin stabilizers.

The **133 MALLORCA** meets Bureau Veritas classification and MCA requirements, enabling worldwide cruising, including commercial charters. Its shallow draft allows it to access anchorages that are inaccessible to larger vessels.

Equipped with Heinen & Hopman air conditioning systems, a water purification system producing 8,600 liters of water per day, and advanced safety systems, including fire protection, the yacht ensures comfort and security. Navigation and communication are supported by **Furuno** radars, GPS, AIS, satellite communication, and VHF systems.

The **Moonen 133 MALLORCA** offers the perfect blend of stylish interiors, spacious outdoor areas, and modern technologies, making it ideal for long-distance cruising and private charters. The yacht will be ready for delivery 28 months after contract signing, with the possibility of customization according to the buyer's preferences.
