MOTOR YACHT ZEELANDER 20.3M 2027

FLAG -

MOTOR YACHT

ZEELANDER 7

The **Zeelander 7** is a high-performance motor yacht, designed by **Zeelander Yachts** in collaboration with Cor D. Rover. This yacht combines elegant design with comfort, even at high speeds. Equipped with three Volvo Penta D13-IPS engines, available in 1,200 or 1,350 hp configurations, the Zeelander 7 achieves impressive results, offering a range of 610 nautical miles at cruising speed.

With a beam of 6.0 meters (19.8 feet) and a draft of 1.5 meters (4.7 feet), the yacht provides ample space while maintaining a sporty profile. Designed with a deep-V hull, the **Zeelander 7** demonstrates excellent performance on the water.

The yacht's layout offers 6 berths in three cabins, each with private bathrooms. The master cabin, located at the bow of the lower deck, spans the full beam and features a king-size bed, while the two guest cabins are equipped with queen-size beds. The main deck is an open space where the cockpit, bar, and salon seamlessly merge through large sliding doors. The raised lounge area and helm station provide excellent visibility. At the stern, the yacht features a spacious swimming platform and a hidden tender garage with a launch system.

The **Zeelander 7** combines the agility and performance of a sports yacht with the comfort of a superyacht, making it the perfect choice for owners who value speed, style, and ease of cruising.
