## CATAMARAN

BGM75

The **BGM75** is a 22.75-meter motor catamaran that seamlessly combines the space of a 100-foot yacht, the efficiency of a 60-foot yacht, and the docking capabilities of a 50-foot yacht. Developed in collaboration with designers Bernardo Zuccon and Piero Lissoni, the yacht stands out for its elegant proportions, innovative layout, and exceptional stability. The **BGM75** offers the perfect balance of comfort, performance, and maneuverability.

The yacht is available in two layout options: a three-cabin version designed by Lissoni & Partners and a four-cabin version created by Zuccon International Project. Both versions feature customizable interiors to meet the needs of even the most discerning owners.

The **BGM75** is equipped with a revolutionary Smartgyro stabilizer system. This innovation ensures the yacht moves smoothly and steadily, regardless of weather conditions. Two Volvo Penta D13 IPS 1050 engines (800 hp each) provide a top speed of 20 knots and a cruising speed of 16 knots. The yacht is equipped with a 5,000-liter fuel tank and a 2,000-liter freshwater tank.

The **BGM75** is the ideal choice for those seeking a yacht that combines space, high performance, and cutting-edge technology.
