MOTOR YACHT

WALLYWHY100

Wallywhy100 - a motor yacht measuring 21.46 meters, reimagining the concept of space, performance, and comfort for yachts under 70 feet. Inspired by the demand for more compact yachts in the **Wallywhy** series, this model combines innovative design and versatility in a maneuverable and adaptable hull.

The **Wallywhy100** features a single uninterrupted deck from bow to stern, ensuring a seamless transition between interior and exterior spaces. The yacht offers a dining area for six, two sun loungers, a bar, and a kitchen. Folding side terraces and aft doors create an airy atmosphere, while the helm can be easily closed, transforming the cockpit into a cozy cinema.

Onboard, the yacht accommodates up to 6 guests in 3 cabins, including a master cabin located at the center of the hull on the lower deck, a spacious VIP cabin, and a twin cabin. The crew has a separate cabin for 2 with an ensuite bathroom.

The yacht boasts a spacious beach area with folding terraces, a hydraulic gangway that also serves as a swim ladder, and an aft platform that lowers for easy launching and retrieval of the tender and water toys. This setup allows guests to enjoy the marine landscape and outdoor activities in comfort.

The **Wallywhy100** is powered by twin Volvo Penta D13 IPS 1350 engines (1,000 hp each), achieving a top speed of 27 knots and cruising comfortably at 24 knots, with a range of 340 nautical miles at cruising speed. With a beam of 5.73 meters and a draft of 1.7 meters, the yacht ensures stability and excellent maneuverability.

Certified by B + F RINA S.p.A., the yacht meets high safety standards.
