## ICE OF LONDON

**ICE OF LONDON** is a 29.06-meter **Sanlorenzo SL96A** motor yacht delivered to her owner in 2025. She represents one of the most comprehensively specified **SL96A** models built to date. Constructed in GRP with teak-laid decks, both her exterior and interior design were developed in-house by **Sanlorenzo**.

Privately used since delivery, the yacht was built in compliance with commercial MCA requirements, allowing for potential charter operation if desired. The Sanlorenzo shipyard warranty and MTU engine warranty are valid until July 2027. A key feature of **ICE OF LONDON** is her combined stabilization system: traditional fin stabilizers are complemented by two gyroscopes, significantly enhancing comfort both underway and at anchor.

Power is provided by twin MTU 16V 2000 M86 engines, each delivering 2,216 hp. She reaches a top speed of approximately 27 knots at around 2,450 rpm, with a cruising speed of 19 knots at 2,000 rpm.

Accommodation is arranged for up to 10 guests in five cabins. The full-beam owner's suite is located on the main deck and includes a spacious en-suite bathroom and walk-in wardrobe. Separate crew quarters accommodate four crew members.

The interior has been finished to a bespoke specification, featuring an upgraded options package and finishes exceeding the standard production configuration.

**ICE OF LONDON** presents the opportunity to acquire a virtually new **SL96A** with an extensive factory specification - without the wait time associated with a new build. The yacht is registered under the Maltese flag.
