## 320 GTC

**Saxdor 320 GTC** is a versatile and high-performance yacht with an advanced hull design, featuring a low center of gravity, lightweight construction, and a sharp entry into the water, ensuring excellent stability and high maneuverability. The hull's vacuum infusion process enhances its strength while reducing weight.

The 320 GTC is available with three Mercury engine options, ranging from 300 to 600 horsepower, providing flexibility in choosing between single or twin-engine configurations. Designed for high performance, this yacht is an excellent choice for fast marine cruises.

Despite its high-performance capabilities, the **320 GTC** offers comfort on board. The yacht includes a spacious lounge, a full-size cabin for overnight stays, and a well-equipped kitchen. Its versatility makes it ideal for both day cruises and weekend trips. The cockpit features convertible sofas that can easily be turned into sun loungers. The expanded sunbathing area on the bow deck and the dining area ensure maximum comfort for guests during the cruise.

The yacht is equipped with modern navigation systems, including dual displays, radar, VHF, and AIS, ensuring safe and confident navigation in all conditions. It also features eco-friendly climate control with a lithium-based cooling system, operating without a generator.
