FLAG -

MOTOR YACHT

GT75

The **Pardo GT75** is the flagship yacht that offers the perfect balance between high performance and spacious relaxation areas. The yacht's hull is designed to provide excellent maneuverability and high fuel efficiency. To minimize environmental impact, the engine room is prepared for the installation of hybrid engines, making the yacht even more eco-friendly.

The exterior of the yacht includes spacious lounging areas, with sunbeds both at the stern and the bow, a dining area, and a swim platform. The tender garage, equipped with an electric lifting mechanism, makes managing water toys easier. The walkaround system allows for seamless movement along the side decks, creating a convenient and unobstructed transition between the outdoor relaxation zones. Sliding doors on the main deck provide easy access to the cockpit.

The interior of the yacht features an open layout with multiple kitchen configuration options: either on the main deck or on the lower deck for greater privacy. The layout offers flexibility, with the possibility to accommodate two to four cabins, each of which can feature either double beds or two single beds. This makes the **GT75** the ideal choice for those who want to customize their onboard space and enjoy ultimate comfort.
