## PROJECT BRAVO

**Project BRAVO** is an 80-meter motor yacht currently under construction. The hull is made of steel with an aluminum superstructure, combining elegant design with cutting-edge technology. Onboard, there are 9 cabins for 18 guests, including a master suite with an office on the main deck, a VIP suite on the upper deck, and seven guest cabins, each with its own en-suite bathroom. The yacht also features 12 crew cabins and a dedicated crew rest area.

**Project BRAVO** offers spacious main and upper salons, a gym, a steam room, a massage room, and a pool on the main deck. The sun deck is equipped with a jacuzzi and sauna. The exterior of the yacht features modern, dynamic lines that create an aerodynamic profile, complemented by plenty of open deck spaces, including a beach club with a garage for tenders and water toys. The yacht is also equipped with tenders, jet skis, wakeboarders, and other water toys. Powered by powerful MTU engines, **Project BRAVO** can reach a top speed of 17 knots. Naiad stabilizers ensure comfort both underway and at anchor. The yacht is perfect for long-range cruising, offering not only luxurious relaxation spaces but also impressive performance characteristics for a stable and safe journey.
