# AURELIUS

The motor yacht **AURELIUS**, built by **Sunseeker** in 2024, is a modern 27-meter vessel featuring a thoughtful layout and expanded leisure areas. She is powered by twin MAN V12 engines, each producing 1,900 hp, enabling a top speed of 27 knots and a cruising speed of 16 knots.

**AURELIUS** accommodates up to eight guests in four cabins, with a crew of two housed in a single cabin. A standout feature is the enclosed, air-conditioned flybridge with a single elevated helm station, offering panoramic views over the bright and spacious main deck. This layout creates a loft-like effect, visually enhancing the sense of space.

Combining contemporary design, strong performance, and extended range, **AURELIUS** provides privacy and comfort for long-range cruising. The yacht is in excellent condition after one season of light private use in the Mediterranean and is offered with full shipyard warranty.
