## OUR ALEPH

The motor yacht **OUR ALEPH**, built by **Sanlorenzo** in 2022, is part of the **SL106 Asymmetric** series - a modern 32-meter yacht defined by innovative spatial architecture and a high level of onboard equipment. Her asymmetric layout significantly increases interior volume while creating a more natural flow between indoor and outdoor areas, ensuring intuitive and comfortable movement throughout the yacht.

She is equipped with a stabilization system, twin 45 kW generators, a watermaker producing up to 1,152 gallons per day, tropical-grade air conditioning, a shore power converter by ASEA Power Systems, and Starlink connectivity.

The layout accommodates up to 10 guests across five cabins. The master suite is located on the main deck and features a private entrance, walk-in wardrobe areas, and direct access to the side deck, offering enhanced privacy. The lower deck includes VIP and guest cabins with double beds, each with en-suite facilities. Crew quarters consist of three cabins, including a dedicated captain's cabin.

The main saloon is arranged into two lounge areas and complemented by a dining space for eight guests, along with a built-in bar. A fold-down balcony on the starboard side enhances the sense of openness and connection to the sea. The galley is fully equipped with Miele appliances and Sub-Zero refrigeration, supporting extended cruising with ease.

Outdoor spaces include a flybridge with a bar, a dining table for up to 10 guests, sunbathing areas, and an integrated grill, as well as an aft deck with a hydraulic swim platform and a tender garage.

**OUR ALEPH** stands out for her high level of specification, including upgraded exterior soft furnishings, underwater lighting, enhanced multimedia systems, and centralized control of onboard systems. Built to RINA standards, she is presented in excellent condition and is fully ready for immediate use, requiring no additional investment.
