PANAME

The motor yacht **PANAME** (**Sanlorenzo SL106 Asymmetric**, hull no. 820), built by **Sanlorenzo** in 2023, is a modern 32-meter yacht distinguished by her innovative spatial architecture and impressive performance. The defining feature of the model is her asymmetric layout, which increases interior volume and enhances the connection between indoor and outdoor areas. By offsetting the side decks, an additional 10 m² of usable space has been created, making the main deck noticeably more spacious and functional.

On board, **PANAME** is equipped with stabilizers by CMC Marine, a bow thruster, twin Kohler generators, a watermaker by Idromar, and a tropical-grade air conditioning system, ensuring comfort in all climates.

The layout accommodates up to 10 guests across five cabins, including a master suite on the main deck and four guest cabins on the lower deck. There are six guest bathrooms in total. Crew quarters consist of three cabins for up to five crew members, with separate service areas.

The interior of **PANAME** features natural materials and bespoke design elements, including ash wood veneers, marble surfaces, integrated storage, and carefully designed ambient lighting. The open-plan main saloon offers a dining area, lounge, and bar, while sliding doors and a side balcony enhance the connection with the sea. The galley is equipped with premium appliances from Gaggenau and Miele, including a cooktop, oven, dishwasher, refrigeration units, and a wine cooler.

The yacht is fitted with an upgraded audio-visual system with centralized control, five TVs, Fusion sound systems, and high-speed internet with 5G and Starlink connectivity. Navigation equipment is by Raymarine, including radar, autopilot, GPS, and chartplotter.

Exterior areas are designed for both relaxation and entertaining, featuring a flybridge with a hardtop, multiple dining and lounge areas, a foredeck with a convertible table and sunbathing space, and an aft deck with a swim platform. Built to RINA standards, **PANAME** is fully operational and ready for immediate use.
