MOTOR YACHT

DABMAR

The motor yacht **DABMAR**, built by **Azimut Yachts** in 2020, is part of the **Grande 27M** series - a modern 27-meter yacht that combines Italian design, strong performance, and a well-optimized layout.

She is powered by twin MAN 1900 hp engines, delivering a top speed of up to 28 knots and a cruising speed of around 24 knots. Her range is approximately 396 nautical miles, or около 248 nautical miles in экономичный режим. The yacht is equipped with twin Kohler generators, stabilization by CMC Marine, a 15-zone air conditioning system, and dual watermakers, ensuring a high level of autonomy and onboard comfort. Navigation and control are handled via integrated systems by Simrad and Naviop, including chartplotters, autopilot, and centralized system management.

The layout accommodates up to 10 guests across five cabins, including a full-beam master suite forward on the main deck, offering excellent privacy. The lower deck features four guest cabins with flexible configurations. A crew of three is housed in separate quarters.

Outdoor areas are designed for versatile use, with the flybridge and foredeck serving as dedicated lounge and dining spaces, while the aft section is arranged as a beach club with transformable elements and easy access to the water.

For onboard entertainment, **DABMAR** is equipped with a multimedia system by Sonos, Apple TV, and Fusion Marine speakers, providing seamless audio-visual experiences throughout the yacht.

Maintained in excellent technical condition, fully serviced, and ready for immediate use, **DABMAR** offers a well-balanced solution in the sub-30-meter superyacht segment, with a strong focus on comfort, layout, and performance.
