MOTOR YACHT

TRINIDAD

The motor yacht **TRINIDAD**, built by **Azimut Yachts** in 2016, is a 25-meter vessel that combines Italian design, stable performance, and a well-considered layout. She is powered by twin MAN V12 engines, each delivering 1,550 hp, allowing for a top speed of up to 28 knots and a cruising speed of around 23 knots. Her range reaches up to 626 nautical miles, or approximately 552 nautical miles in economical mode. The yacht is equipped with twin Onan generators and a stabilization system for enhanced comfort.

The layout accommodates up to eight guests across four cabins. The full-beam master suite features a walk-in wardrobe and en-suite bathroom. Additional accommodations include a VIP cabin, a double guest cabin, and a twin cabin with an additional Pullman berth. A crew of three is housed in separate quarters aft, ensuring professional service and guest privacy.

The interior, designed by Salvagni Architetti, benefits from abundant natural light *благодаря* large windows in the saloon and dining area. High-quality materials and a refined, understated style create a comfortable onboard atmosphere.

Outdoor spaces are arranged for relaxed living, including an aft deck with an alfresco dining area, a foredeck lounge for sunbathing, and a flybridge equipped with a refrigerator, ice maker, and dual barbecue.

Built to Category A standards, **TRINIDAD** offers a reliable and versatile platform with solid performance characteristics. She is fully operational and ready for immediate use, combining thoughtful design with balanced capabilities.
