MOTOR YACHT

A-FORCE

The motor yacht **A-FORCE**, built by **Azimut Yachts** in 2021, is part of the **Fly 78** series - a modern 24-meter yacht combining strong performance, advanced technology, and a well-optimized layout.

She is powered by triple Volvo IPS engines, each delivering 1,000 hp, providing excellent maneuverability, precise handling, and fuel efficiency. The yacht is equipped with twin Kohler generators and a stabilization system effective both underway and at anchor, ensuring comfort in various sea conditions.

The layout accommodates up to eight guests across four en-suite cabins. The full-beam master suite offers increased volume and well-designed storage, while three additional cabins provide comfortable guest accommodation. A crew of three is housed in separate quarters, maintaining a high level of service and guest privacy. The interior, designed by Achille Salvagni, features a contemporary Italian style with warm materials and refined finishes. The open-plan main saloon, enhanced by panoramic glazing, creates a seamless transition between interior and exterior living spaces. Outdoor areas include a flybridge and a foredeck lounge, serving as the primary zones for relaxation and socializing.

A-FORCE benefits from a successful charter history and is maintained by a professional crew, reflected in her excellent technical condition. Combining performance, modern engineering, and functional design, she offers the capabilities of a larger yacht within a more compact format.
