MOTOR YACHT

THE ONE

The motor yacht **THE ONE**, built by **Absolute Yachts** in 2024, is a modern 20-meter vessel that combines innovative architecture, increased interior volume, and a high level of comfort.

She is powered by twin Volvo IPS 1300 engines, delivering excellent maneuverability, precise handling, and fuel efficiency. The yacht reaches a top speed of 24 knots, with a cruising speed of around 19 knots and a range of up to 735 nautical miles. Engine hours are under 300. For enhanced onboard comfort, she is equipped with a Seakeeper 18 stabilization system.

The layout accommodates up to eight guests across four cabins. A standout feature is the transformable aft beach club, which can be converted into a fully enclosed double cabin with sliding doors and watertight glazing, adding flexibility to the yacht's layout. There is also a separate crew cabin for one crew member.

The main deck is designed with an emphasis on light and space, featuring full-height panoramic glazing that creates a strong visual connection with the sea. The centrally positioned engine room allows for increased interior volume and optimized layout. The helm station is configured as a raised open helm with a curved frameless windshield, offering excellent visibility.

The yacht is equipped with modern navigation systems and advanced multimedia equipment, ensuring a комфортный and user-friendly onboard experience.

Circulation throughout the yacht is intuitive, with efficient use of both interior and exterior spaces.

Presented in near-new condition with an active shipyard warranty, **THE ONE** is fully ready for immediate use. She offers a well-balanced solution in the under-20-meter segment, combining modern technology, smart design, and a level of comfort typically found on larger yachts.
