MOTOR YACHT

MAVIS

MAVIS is a **Pershing 9X** motor yacht delivered in 2019 by **Pershing Yachts**. Privately used since new, she is offered with VAT paid and presented in excellent technical condition, ready for immediate use. Both hull and superstructure are constructed from advanced composite materials with extensive use of carbon fibre, resulting in reduced weight and outstanding performance. Her exterior, designed by Pershing in collaboration with Fulvio De Simoni, features sleek aerodynamic lines, signature side wings, and a striking silver metallic finish.

Accommodation is provided for up to 8 guests across four staterooms, including a full-beam master suite, a VIP cabin, and two guest cabins. Each stateroom is equipped with its own en-suite bathroom. Crew quarters for three are arranged across two cabins, ensuring professional service while maintaining guest privacy. Powered by twin MTU 16V 2000 M96L diesel engines (approx. 1,033 hours each), **MAVIS** delivers exhilarating performance, with a cruising speed of around 36 knots and a top speed of up to 41 knots - ideal for fast and efficient cruising between destinations. Navigation and control systems are fully integrated, providing precise handling and complete command of onboard systems. The yacht is built in accordance with RINA classification standards.

Outdoor spaces are designed to complement her sporty character, offering well-configured areas for relaxation and helm operations, as well as smooth and efficient movement throughout the yacht.

Combining high speed, advanced technology, and lightweight composite construction, **MAVIS** represents one of the most dynamic and high-performance offerings in the 28-metre sport yacht segment.
