MOTOR YACHT

SUMMER FUN

SUMMER FUN is a 30.86-metre motor yacht delivered in 2001 by **Admiral Yachts**, extensively refitted in 2023 and again in 2026. The upgrades included a full hull repaint, replacement of superstructure windows, and a comprehensive interior modernization, bringing the yacht to an excellent technical and aesthetic standard. Constructed with an aluminum hull and superstructure and finished with teak decks, **SUMMER FUN** features a semi-displacement hull that offers an effective balance between performance and onboard comfort.

Accommodation is arranged for up to 12 guests across six staterooms. The layout includes a master suite on the main deck, a full-beam VIP cabin that can be converted into a playroom, and four twin cabins - two of which can be configured as doubles. All staterooms are en-suite.

Power is supplied by twin Kohler generators (33 kW each), complemented by an additional 23 kW night generator. The yacht is equipped with full air conditioning, as well as modern galley and laundry appliances from Miele, Alpes-Inox, and Liebherr. Additional features include ice makers and wine coolers.

Interior spaces are designed with a focus on practicality and long-stay comfort. The refreshed décor features a neutral palette and benefits from abundant natural light. Well-balanced and recently upgraded, **SUMMER FUN** represents a strong offering in the 30-metre segment, combining a robust aluminum platform, modernized interiors, and versatile cruising capabilities.
