MOTOR YACHT

# CASA

**CASA** is a 27.3-metre motor yacht delivered in 2016 by **Wally Yachts**, conceived under the direction of Luca Bassani. She reflects the brand's signature minimalist philosophy, with a strong emphasis on open living and a seamless connection to the sea.

Constructed in GRP with teak decks, **CASA** features a displacement hull that ensures stability and efficiency during long passages, making her ideally suited for relaxed cruising.

With a beam of 7.8 metres, a draft of 1.8 metres, and a gross tonnage of approximately 117 GT, **CASA** offers generous internal volume for her size.

Accommodation is arranged for up to 8 guests across three staterooms. The owner's suite is a standout feature, with sliding doors opening directly onto a waterside aft terrace - an iconic Wally design element that creates the feel of a private beach club.

The overall layout is centered on openness and visual continuity. Expansive glazing and 360-degree views maintain a constant connection to the surrounding seascape, while the seamless transition between interior and exterior spaces creates a unified onboard living environment. Two decks are fully optimized for outdoor living, including a foredeck relaxation area with a Jacuzzi and sun loungers.

The main saloon is fully integrated with the exterior through sliding glass sections, maximizing natural light and enabling effortless movement throughout the yacht. Offering a distinctive approach to yacht design in this size range, **CASA** combines functionality, visual lightness, and Wally's signature open-space philosophy into a unique and contemporary cruising platform.
